STRATEGIC RECOMMENDATIONS

Executive action plan to reduce churn and protect revenue

What We Found

- Month-to-Month customers account for the largest share of churn.
- Fiber Optic customers generate the highest revenue but also experience the highest churn.
- Electronic Check users contribute the most revenue at risk.
- Customers in their first year are significantly more likely to churn.
- Revenue loss is concentrated within a small number of customer segments.

What We Recommend

- Incentivize customers to switch from Month-to-Month to annual contracts.
- Launch targeted retention campaigns for Fiber Optic customers.
- Encourage Electronic Check users to adopt AutoPay.
- Strengthen onboarding for customers during their first year.
- Prioritize high-value customer segments using churn risk insights.

Expected Business Impact

Reduce customer churn Protect recurring monthly revenue Enable data-driven decision making

Increase customer lifetime value Improve customer retention
